

# Change Of Heart

Jimmy Barnes

Oh girl, look at the time it takes  
To see the whole thing fall  
And girl, look at the love we waste  
Have nothing left at all  
In time if I'm alone I'll learn to live a life  
That don't begin with you

But if you change your mind  
Change your point of view  
Will you have a change of heart  
And let me stay with you  
And if you change inside  
What you know is true  
Will you have a change of heart  
And let me stay with you

Oh girl you said you've seen it all  
As plain as it was day  
And now all I have's a memory  
Of life a better way

I've reached a crossroad girl can I go on  
Or will I lose my way

But if you change your mind  
Change your point of view  
Will you have a change of heart  
And let me stay with you  
And if you change inside  
What you know is true  
Will you have a change of heart  
And let me stay with you

You're finding your way at last  
I'm falling apart

I've reached a crossroad girl can I go on  
Or will I lose my way

But if you change your mind  
Change your point of view  
Will you have a change of heart  
And let me stay with you  
And if you change inside  
What you know is true  
Will you have a change of heart  
And let me stay with you

And if you change your mind  
Change your point of view  
Will you have a change of heart  
And let me stay with you  
And if you change inside  
What you know is true  
Will you have a change of heart  
And let me stay with you

If you change your mind  
Change your point of view  
Will you have a change of heart  
And let me stay with you  
And if you change inside  
What you know is true  
Will you have a change of heart  
And let me stay with you
