

## It Will Be Alright

Jimmy Barnes

Well a passing glance across the room  
It brought me to your side  
And the words you spoke like melodies  
Made my spirit high  
If forever seems too long for you  
I'll gladly set you free  
But if I always dream of you  
It'll be alright with me

Well I always felt alone in life  
Until you came alone  
And you took away my darkest fears  
And made me feel so strong  
Well I know that nothing stays the same  
I'll have to let you be  
But if I always dream of you  
It'll be alright with me

You and I are the same  
We need to be loved sometime  
But we're scared of the pain  
We find if we waste our time  
Sometimes you have to choose to walk the line  
Even if you're walking blind  
That's the game that we play

And if forever seems too long for you  
I'll gladly set you free  
But if I always dream of you  
It'll be alright with me  
But if I always dream of you  
It'll be alright with me  
It'll be alright with me  
It'll be alright with me
