

## Not the Loving Kind

Jimmy Barnes

Well I've finally done it baby, I've got you figured out  
I said a pocket full of money, is all you ever cared about  
Tell me now darlin'  
When you're gonna find time to make love to me  
When there's a million others standing in line

You're not the loving kind, I know it's so plain to see  
You're not the loving kind, so why you been loving  
Why you been loving on me?

You've got a sugar daddy on every corner in town  
Soon as one man leaves  
Another man starts hangin' around  
Make it simple for you darlin', make it easy as can be  
I don't think everlasting love was meant to be

You're not the loving kind, it's written all over your face  
You're not the loving kind,  
You told me any man you had would be replaced
