

Out In The Blue

Jimmy Barnes

There's no looking for me girl
If I don't want me to be found
'Cause I've been hiding for a lifetime girl
But that's all changed since you've been around

Out in the blue is where I've been
I kept my feelings deep within
My heart was covered up by scars
From out in the blue you Pulled me back
You have everything I lack
And Now I like the way things are

I change the habits of a lifetime girl
Just lose the old and start anew
And find direction Walk a Straight Line girl
And Stop the lies and face the truth

Out in the blue is where I've been
I kept my feelings deep within
My heart was covered up by scars
From out in the blue you Pulled me back
You have everything I lack
And Now I like the way things are

I'm looking forward to what's coming now
I'm ready for life's ups and downs
And facing up to what life has in store
And it's easier with you around

Out in the blue is where I've been
I kept my feelings deep within
My heart was covered up by scars
From out in the blue you Pulled me back
You have everything I lack
And Now I like the way things are

Out in the blue is where I've been
I kept my feelings deep within
My heart was covered up by scars
From out in the blue you Pulled me back
You have everything I lack
And Now I like the way things are

I like the way things are

Now I like the way things are

I like the way things are
