

# Red Light

Jimmy Barnes

Well I'm walking down the road  
I got no place left to go  
Everything I used to have  
Now I've got nothing left to show

Well I'm not looking for your sympathy  
But I could use a little dough

Well I'm walking by the red light  
Gonna find me all that I'm owed  
And I know where I'm gonna be then  
When the red light's gonna shine on me

And the pilgrims look for hope  
Among the booze and the girls and dope  
In this city institution  
Find your life or lose your soul

Well I'm walking by the red light  
Gonna find me all that I'm owed  
And I know where I'm gonna be then  
When the red light's gonna shine on me

Well the wind is blowing harder  
And I just don't feel the cold

And all the girls with their lipstick smiles  
They keep on walking by  
They're blowing kisses in the cold night air  
You'll see heaven in there eyes

Well I'm walking by the red light  
Gonna find me all that I'm owed  
And I know where I'm gonna be then  
When the red light's

Well I'm walking by the red light  
Gonna find me all that I'm owed  
And I know where I'm gonna be then  
When the red light's gonna shine on me

It's gonna shine on me  
I said that red light's gonna shine  
It's gonna shine on me  
Gonna shine on me...
