

# Tears We Cry

Jimmy Barnes

I was alone, then you came along  
So unexpected but you made me strong  
Never took for granted what I thought was mine

We'd stay together was the plan I had for you and I  
Everything seemed right

How could a love that was so special, that it gave you life  
Just be taken without warning  
I sit here alone and still wonder why

With all the tears we cry  
Wash away the pain inside  
All the questions are left behind  
Floating in the tears we cry

Don't feel the anger and I don't feel the pain  
Just an empty space where your loving arms would make my day  
There's not a single trace

Now I try to keep believing  
It was meant to be  
If a God's so demanding  
I'd face all he has just to keep you with me

Every time I close my eyes, I see you there  
Then I wonder why  
I never keep you  
Safe and warm

Nothing's gonna change the way you came and went  
Just like a summer's day  
Just an empty space now that you have gone

Oh, now I keep trying to believe it was meant to be  
If there's a God up in heaven  
All I know is he ain't looking at me
