

# Used To the Truth

Jimmy Barnes

Seems I've been my whole life what I'm suppose to be  
Now I've had enough and I'm gonna be free  
Every day in every way I'm losing sight  
Of all my dreams and lord knows that just ain't right

Sometimes you're just so persuasive girl  
Hang on every word you say

You better get used to the truth  
Honey there just ain't no time no more  
You better get used to the truth  
I'm walking right out of that door

I can smell salvation when it gets close to me  
As I'm reaching out I feel it just slipping away

Just give me some indication girl  
That there's nothing left to say

You better get used to the truth  
Honey there just ain't no time no more  
You better get used to the truth  
I'm walking right out of that door

You better get used to the truth  
Honey there just ain't no time no more  
You better get used to the truth  
I'm walking right out of that door

How can you please yourself and no one else can even  
Try to find a way into the place you hide away from me

Sometimes you're just so persuasive girl  
Hang on every word you say  
As I'm reaching out and you're slipping away

You better get used to the truth  
Honey there just ain't no time no more  
You better get used to the truth  
I'm walking right out of that door

You better get used to the truth  
Honey there just ain't no time no more  
You better get used to the truth  
I'm walking right out of that door

You got to get used to the truth  
Honey there just ain't no time no more  
You better get used to the truth  
I'm walking right out of that door

You got to get used to the truth  
You got to get used to the truth  
You got to get used to the truth  
I'm walking right out of that door  
You got to get used to the truth  
Honey there just ain't no time no more

You got to get used to the truth  
I'm walking right out of that door
