Without Your Love

Jimmy Barnes

When you work in the city But your heart is somewhere else You've got to hide your feelings Gotta keep them to your self Nowhere to go when you just brake down and cry Everything reminds you just how far away you are

I swear I would die Without your kiss Keep me warm inside Without your love I would not be around It's your love Keeps my both feet on the ground

Well I hit this town Found a place to put my bags There's a red light flashing Like a beacon gonna drive me mad And a man outside is flagging down passing cars And it all just help remind me just how far away you are

Without your love I swear I would die Without your kiss Keep me warm inside Without your love I would not be around It's your love Keeps my both feet on the ground

I can't live without your love baby

Without your love I swear I would die Without your kiss Keep me warm inside And without your love I would not be around It's your love Keeps my both feet on the ground

Without your love I wont be around Baby I swear I wont be around
