Little Things

Jimmy Dean

I hope I won't disturb you with this call but I'm just in town for such a little while And I thought perhaps you'd like to hear the news Jeannie's grades were the highest in the school Billy sure does look a lot like you I understand your other son does too

Billy said tell mom I miss her so These were some little things that I thought you'd like to know If you remember Sam and Peg who lived next door With them it seemed we always laughed so much

Well Sam and Peg don't live there anymore I understand they bro ke up just like us The house we lived in now has been torn down of all the things it was the last to go The freeway now runs through that part of town These were some little things I thought you'd like to know These were some little things I thought you'd like to know
