

# No One Will Ever Know

Jimmy Dean

No one will ever know how much I love you  
Although a million tears start to flow  
I may cry myself to sleep but I'll wake up smiling  
Oh, I'll miss you but no one will ever know

I'll just tell them we grew tired of each other  
And that our love has never meant to be  
Oh, I'll even make believe I never loved you  
Then no one will ever know the truth but me

I'll just tell them we grew tired of each other  
And that our love has never meant to be  
Oh, I'll even make believe I never loved you  
Then no one will ever know the truth but me
