

# Here It Goes

Jimmy Eat World

On, it's on.  
I declare my room a scene  
Gone, then gone  
It's too much that they say you need  
It's not perfection, yeah  
How boring if it is  
Nothing new for me

Light on up  
With everybody watching you  
Lights go down  
Everything is yours to lose  
First dancer takes the floor  
Laugh what you can't ignore  
What you gonna do

Waiting for attention  
I'm not  
Cut it to the left  
And I rock  
Need an invitation  
I don't  
Slide it to the right  
And I roll

Here it goes  
Crowning up the cool kid queen  
There it goes  
The competition show their teeth  
I'll let them fight it out  
It's just my party now  
What I want to be

Stand on up  
Everyone in queue in costume  
Stare on out  
Don't get sucked in for a second  
Bright lights might say your name  
They only light the stage  
Nothing there to prove

Waiting for attention  
I'm not  
Cut it to the left  
And I rock

Need an invitation  
I don't  
Slide it to the right  
And I roll

Waiting for attention  
I'm not  
Cut it to the left  
And I rock  
Need an invitation  
I don't

Slide it to the right  
And I roll

Hey Hey Hey Hey  
Don't accept critique or credit  
Hey Hey Hey Hey  
Definition always changes  
It's not the same as yours  
You could be so much more  
The closer that you get

Oh oh, oh oh  
Oh oh, oh oh  
Oh oh, oh oh  
Oh oh,

Waiting for attention  
I'm not  
Cut it to the left  
And I rock  
Need an invitation  
I don't  
Slide it to the right  
And I roll

Waiting for attention  
I'm not  
Cut it to the left  
And I rock  
Need an invitation  
I don't  
Slide it to the right  
And I roll
