

# Just Watch the Fireworks

Jimmy Eat World

Here you can be anything.  
I think that scares you.  
I think that scares you.

Here  
I've been here before but only by myself, myself.

[2x]  
I promised I'd see it again.  
I promised I'd see this with you now.

What giving up gives you  
and where giving up takes you.  
I've had and I've been.

Here in center frame,  
here there's only air.  
and just enough space to fit.

[2x]  
I promised I'd see it again.  
I promised I'd see this with you now.

I said said said it out loud over and over  
Said said said it out loud, but what do I know?  
I said said said it out loud over and over again  
I said said said it out loud over and over  
I said said said it out loud but it did not help

I'll stop now.  
Just enough so I can hear you  
I stay up as long as it takes

[2x]  
I promised I'd see it again.  
I promised I'd see this with you now.

I said said said it out loud over and over  
Said said said it out loud, but what do I know?

I'll stop now.  
Just enough so I can hear you  
I stay up as long as it takes  
I stay up as long as it takes  
I stay up as long as it takes  
I stay up as long as it takes  
I stay up as long as it takes  
I stay up as long as it takes  
I stay up as long as it takes
