

## No, Never

Jimmy Eat World

I stumble in as something not to say  
I needed time so I took it and got me some space  
Oh it isn't that I understand  
Just wondering whatever I am  
And the look you give is not enough  
And you don't see how it could be equally be turning me off

I guess there's some things, you should never have, never known  
about  
We got a good thing, but you're better off not asking me how  
Well is it so mean, just to let it pass, let it all go  
Because there's some things, you should never have,  
Never known about, no never known about, no never known

I'd be lying if I said it was just a kiss  
I'd be lying if I said there wasn't more to this  
So what you think it's gonna help?  
And if you worry about everyone else  
The options that I think you have  
Say goodbye or get over it, goodbye or get over it

I guess there's some things, you never have never known about  
We got a good thing, but you're better off not asking me how  
Well is it so mean, just to let it pass, let it all go  
Because there's some things, you should never have,  
Ever known about, no never known about, no never known

You know I don't ever sleep,  
Just starting at the ceiling  
I'm laid there beneath myself  
You should have to be somewhere else  
With someone just like me  
Nothing complicated  
All the feelings and fantasy  
Can you trust, can you trust

That there's some things, you should never have, never known ab  
out  
We had a good a good thing, but you're better off never knowing  
how  
Well is it so mean, just to let it pass, let it all go  
Because there's some things, you should never have,  
Never known about, no never known about, no never known
