

# Please Say No

Jimmy Eat World

It was a freezing night and not a single cloud  
I had a couple in me so I reached out  
And then I heard your voice  
Felt you all inside  
I prayed for the distance to keep us in line  
But there's things I've done you understand like no one else  
There's pain I kept buried deep inside myself  
I've been saying for forever "hey that's not me"  
But me with you is who I think I'll always be

Please say no  
Please say no  
Please say no  
Please say no  
Say anything you will  
Except how you'd have me still  
Say anything but no  
And I'll go I'll go I'll go

It was the peak of summer and I thought I'd drowned  
We couldn't get close  
All the kids were around  
But I could read you plain  
You want a different life  
Someday hell, you might ruin mine  
I've lately come to wonder what it might feel like  
If one last time we went and did this right  
And someone no one possibly could know our names  
Someone no one bothers to remember face

Please say no  
Please say no  
Please say no  
Please say no no no no no  
Say anything you will  
Except how you'd have me still  
Say anything but no  
And I'll go I'll go I'll go

With you  
With you  
With you

If all you're really hoping for is peace of mind  
Don't come to me with questions, you'll just waste your time  
Exactly what you're looking for is what you'll find  
All I see around me is a losing bind

Please say no  
Please say no  
Please say no  
Please say no no no no no  
Say anything you will  
Except how you'd have me still  
Say anything but no  
And I'll go I'll go I'll go  
And I'll go I'll go I'll go
