

They're disregarding us telling me I'm blind.
Trying to rid my mind,
and if worst comes to worst I think I'll be first to never be the same.
We're not to blame.
I wasn't there.
Hair in her eyes and it didn't cost a thing.
Fell to my knees.
Stuck on like fleas.
Saw on TV and it took effect.
And who were they to judge?
It could've been way worse, it didn't have to strain.
They bound us sleep which didn't mean a thing.
Calling in for free.
Sick of being down while coming through a fall.
I want out.
We're not to blame.
I wasn't there.
Hair in her eyes and it didn't cost a thing.
Fell to my knees.
stuck on like fleas.
Saw on TV and it took effect.
Come on down.
Come on down.
Now round this (chos ?) found an (ink ?)
Where not one trace left of you that's clear where found your face.
Dreams and my full Circle K,
dreams and my full Circle K,
dreams and my full Circle K.
That's where your mom can find you now.
