

# You Were Good

Jimmy Eat World

It could have been but never was  
At least the way you thought it'd be when you grew up  
And there's so much of you I love  
but loving you alone isn't enough

You were good  
You were good  
Then you were gone  
I believed you all along  
Yeah it's sad but baby here we are  
It was good  
It was good  
Then it was gone

You got a charm you wear around your neck  
Reminds you of him and I can see right through  
Either you're just bad at cheating  
Or there's something your heart you wished I knew

You were good  
You were good  
Then you were gone  
I believed you all along  
Yeah it's sad but baby here we are  
It was good  
It was good  
Then it was gone

So I'm not who you wanted but  
You're still the one who sets the fire in me  
Guess I'll drink what I'll drink  
Until the loving touch I need is not a need

You were good  
You were good  
Then you were gone  
I believed you all along  
Yeah it's sad but baby here we are  
It was good  
It was good  
Then it was gone  
It was good  
It was good  
Then it was gone  
It was good  
It was good  
Then it was gone
