

Just Got To Know

Jimmy McCracklin

I want to know, I just got to know
Why do you always play around
If you have the same feeling for me
Then why don't you settle down

I want to know, I want to know I just got to know

I think you want me for conveniency
If I'm wrong please tell me right
I know I been in the dark a long time
But one day I will see the light

I want to know, I want to know I just got to know

It takes you to prove you love me
You can prove it sure as the world is round
But I know from your ways and actions
I have a feeling you have let me down

I want to know, I want to know I just got to know

Vamp

I want to know, I want to know I just got to know
