

# I Believed

Jimmy Nail

I believed all the things you said

So I laid my weary head  
And as the dawn began the day  
All we had was swept away

Because I believed

And you believed that the world was  
Yours you were waiting fr applause  
But the people ll said no  
And as you came, so did you go

I believed  
I believed

Oh, you fools  
You broke all the rles  
And now you have to pay

They believed that a change would come  
That one day 'thy will be down'  
An behold, it came to pass  
That the free were free at last

Because I believed  
I believed
