## Laura

**Jimmy Nail** 

I can hear the ocean pushing t the bay If I close my eyes then maybe it'll go away Everywhere ther'e sunlight and Children play for time thought I heard a sign then I realised it was mine

The sky's a perfect blue again But if you look it's hard to tell If it's paradise or hell

But now I know, laura Summer is a lonely place Oh, laura I wish I could see your face

When a million birds sing how can I be sad It's s if they know I lost the only chance I had

The sky's a perfect blue again But it might as well be grey 'cause I let you walk away

But now I know, laura Summer is a lonely place Oh, laura I wish I could see your face Oh, laura I kissed you in the rain Oh, laura How I wish I was home again

In winter I was warmer Don't make me wait here alone The sun has cast it's shadow And it chills me to the bone

Oh, laura How I wish I was coming home

The sky's a perfect blue again But it might as well be grey 'cause I let you walk away

But now I know, laura Summer is a lonely place Oh, laura I wish I could see your face Oh, laura I kissed you in the rain Oh, laura How I wish I was home again
