

Lost

Jimmy Nail

hit to the head
and straight away dead
lost
so much to give
every reason to live
lost

you'd climbed your mountain
and you thought it was sorted
lost
while above men are stranded
lost in space
who'll shine the light?
get to lead the way?
lost
we need somebody right now, today
lost
where we gona find
the dog to lead our blind?
lost
while above men are stranded
lost in space
down below, indecision, heavy-handed,
a world with no-one to command it
we are lost

look to the bible
look to the sky
lost
people afraid, they don't know why
we are lost

we need an answer
something to believe in

we are lost
while above, men are stranded
lost in space

down below, indecision, heavy-handed,
a world with no-one to command it

this is not the way we planned it
we are lost

....

we are lost
we are lost
this is not the way we planned it
I don't understand it
