

## Real Love

Jimmy Nail

And when the shouting's over  
Where do you go?  
And when you're a wounded soldier  
Who wants to know?

And when there's just no getting  
Through to you  
Pull back the clouds and take  
A glimpse of the sky  
When love comes down it's just like  
Learning to fly

There's no harm that's gonna come to you  
You're not in danger any more

Real love can climb any mountain  
Real love as big as the sky

It's a mysterious thing  
How it begins  
You search for a life-time  
But it won't let you in

And then it's there

There's a joy that runs  
Through everything you do  
Through somebody's love you  
Become alive

Real love can climb any mountain  
Real love as wide as a mile  
Real love as deep as the ocean  
Real love as big as the sky
