

## Still I Dream Of It

Jimmy Nail

time for supper now  
day's been hard and I'm so tired  
I feel like eating now  
smell The kitchen now  
hear the maid whistle a tune  
my thoughts are fleeting now

still I dream of it  
of that happy day  
when I can say I've fallen in love  
and it haunts me so  
like a dream that's  
somehow linked to all the stars above

young and beautiful  
like a tree that's just been planted  
I found life today  
I made mistakes today  
will I ever learn the lessons  
that all come my way

still I dream of it  
of that happy day  
when I can say I've fallen in love  
and it haunts me so  
like a dream that's  
somehow linked to all the stars above

a little while ago  
my mother told me  
Jesus loved the world  
and if that's true then  
why hasn't he helped me to find a girl  
and find my world ?

'til then I'm just a dreamer  
I'm convinced of it  
the hypnosis of our minds can take us far away  
it's so easy now  
you see someone up there high  
in heavens here to stay

still I dream of it  
of that happy day  
when I can say I've fallen in love  
and it haunts me so  
like a dream that's  
somehow linked to all the stars above
