

# Come Around

Jimmy Needham

I thought I'd win them all with words  
I'd say a smooth little line to win the room every time  
And they'd be moved by what they heard  
My tongue as empty as my heart  
It's not enough to play the part  
O Jesus give me more than words

[Chorus]

We pass out paper facts all week but they won't come around  
Apologetic reasoning, but they won't come around, come around  
There's only one way they'll come and it's love

I am a one man marching band  
And you'll be mighty surprised to realize just how I'm playing  
my songs  
It's all live music ten till one  
Come hear some cymbal crashing, son  
And maybe hear me beat the gong

[Chorus]

Men with other men loving the mammon more than God  
Man, they're in a sinking ship and who can save them?  
God can  
Maybe for a minute I can get back to the heart of it  
Sure I've got zeal, but does love have a part in it?  
Passionate words and beautiful phrases  
They just don't mean much if I don't have Jesus in it

[Chorus]

And it's love
