

Come Back To Me

JJ Heller

(Verse)

When will you have enough?
You've gone away again
I see you self-destruct
My heart is caving in

(Chorus)

I hate to see you all alone
You won't find what you're looking for
Your home is never far away
I'll be here when you come back to me

(Verse)

When I look in your eyes
I don't know who I see
The walls are closing in
But they don't have to be

(Chorus)

I hate to see you all alone
You won't find what you're looking for
Your home is never far away
I'll be here when you come back to me

(Verse)

What're you gonna do
When it all comes crashing down on you?
What's it gonna take?
How many ways can a heart break?

I hate to see you all alone
You won't find it
You won't find it

(Chorus)

I hate to see you all alone
You won't find what you're looking for
Your home is never far away
I'll be here when you come back to me

When you come back to me
When you come back to me
