

# Save Me

JJ Heller

Living  
Am I really living  
Or am I just existing  
Hiding away

Danger  
The world is full of danger  
But if I never try to go outside  
My heart will waste away

Come and save me  
You're the only source of all the peace I need  
Come and save me  
Come and save me

You tell me life will not be pain free  
What will be will always be in your control  
Darkness is light to you  
And all you ask me to do  
Is trust what you say is true

You are stronger  
Than any terrible possible scenario today  
Come and save me  
You're the only source of all the peace I need  
Come and save me  
Come and save me

Save me, save me... Oh  
Save me, save me... Oh

You are stronger  
Than any terrible possible scenario today  
Come and save me  
You're the only source of all the peace I need so desperately  
Come and save me  
Come and save me  
Come and save me
