

# Stay

JJ Heller

When you can't feel a thing  
After too many stings  
When you forget about grace  
The world is a lonely place

Stay with me, you'll be surprised  
There's a world of color beyond black and white  
Open your eyes, let in the light  
You'll see when you stay with me

When you can't hear a thing  
There are no words to sing  
You keep your heart where it's safe  
But the world is a silent place

Stay with me and you'll be surprised  
There's a world of color beyond black and white  
Open your eyes, let in the light  
You'll see when you stay with me

(Bridge x2)  
Hold on  
Be strong  
Believe in love

Stay with me, you'll be surprised  
There's a world of color beyond black and white  
Open your eyes, let in the light  
You'll see when you stay with me

There's a world of color beyond black and white  
Open your eyes, let in the light  
You'll see when you stay with me
