

Tell It Again

JJ Heller

When I breathe
It's like a song you give me to sing
And I sing "Oh... amazing"

So hold me
When you're here I'll never be lonely
You're my favorite part of this story
So tell it again and again to me

When I sleep every morning
You give me a new day to dream
And you dream with me

So hold me
When you're here I'll never be lonely
You're my favorite part of this story
So tell it again and again to me

I love when you hold me
When you're here I'll never be lonely
You're my favorite part of this story
So tell it again and again to me

My heart is whole
You're the light inside my soul
How deep is your love

You make me see
What it looks like to be free
I need your love

So hold me
When you're here I'll never be lonely
You're my favorite part of this story
So tell it again and again to me

I love when you hold me
When you're here I'll never be lonely
You're my favorite part of this story
So tell it again and again to me

Tell it again and again to me
