

Until You Came Along

JJ Heller

I tried to live this life on my own
But emptiness was beating down the door
Yeah, it rose up like a flood until my dying days were done
They are no more

Nothing makes sense without you
It's like waking up in the dark
I didn't have a song
Until you came along

Falling in love with you was easy
You were always meant to have my heart
I was broken all to pieces
You were there to be the missing part

Nothing makes sense without you
It's like waking up in the dark
I didn't have a song
Until you came...

And I never want to go back
To the way things were before
You saved me and you made me yours

Now nothing makes sense without you
It's like waking up in the dark
I didn't have a song
Until you came along

Now nothing makes sense without you
It's like waking up in the dark
I didn't have a song
Until you came along
