

When I'm With You

JJ Heller

When I hold you in my arms, Love
Something changes
It's the strangest feeling
The things that used to matter
They don't matter to me
When I see you
And you're smiling
How my heart aches
So full it is about to break
You make me believe in love

I could never count all the ways
That you change me, Baby
Every day the sky is a deeper shade of blue
When I'm with you

When I hear you, and you're crying
It resonates, Dear
In a place I didn't know was there
You make me believe in love

I could never count all the ways
That you change me, Baby
Every day the sky is a deeper shade of blue
When I'm with you

Beautiful baby
You're sweeter than strawberry pie
Just like the morning
Your smile brings the sunshine

I could never count all the ways
That you change me, Baby
Every day the sky is a deeper shade of blue
When I'm with you

I could never count all the ways
That you change me, Baby
Every day the sky is a deeper shade of blue
When I'm with you
