

# You Would Love Me Too

JJ Heller

We could talk for hours  
It doesn't matter  
You don't hear a word I say  
'Cause you don't listen when I speak  
So I'll sing instead

La la la la la I love you  
Ooh... I really do  
If you ever paid attention  
I think you would love me too

You say you want to know me  
I get the feeling that you're telling me a lie  
'Cause every time I talk about emotion  
You shake your pretty head and say goodbye

La la la la la I love you  
Ooh... I really do  
If you ever paid attention  
I think you would love me

Why do I love you like I do  
When you ignore me  
Just like the sun ignores the moon  
All you see is you

I love you  
Ooh, sad but true  
If you ever paid attention  
I think you would love me too

I love you  
Ooh... I really do  
If you ever paid attention  
I think you would love me too  
Love me too  
Love me too
