

## Let Go

jj

All I've left is my soul  
Fall left me with this winter so cold  
Take me away  
Like an overdose on heroin

Baby, we were born for fun  
Or maybe to sleep in the sun  
A place where new waves come in  
A place you'll be here

Let go  
Let the wind blow  
Back your head tonight

Let's go  
Let your friend know  
That you're here on a beach by my side

Called me today on the phone  
The sun guided me home  
I'll never be alone again  
'cause I've got a friend

Let go  
Let your skin show  
That you've been in the sun today

Let's go  
Let your mind blow  
All your sorrows away
