

You Know

jj

I don't know why
I think I'm falling in love
I just found out
I don't know what to do
I could have done it 4000 days or so
just one single minute so you know

I love you so in my dreams at night
Your visions are sharp shining and bright
I tried to tell my friends, but they think I'm insane
When you're around, theres no need to explain.

I've been around, and so have you to flow
But now I've found that you have other people I've met
I keep following you to places
I've already been to - still feels new.

I love you so, but it's getting old
Without events up at hand I'll never fold
Told my friends but they remain the same
When I'm with you every day is a beautiful day

And now I cherish every moment when we're together
And you laid away can want it or become it.
You smile through lips we'll see.
