

protect me on my way  
stay with me every day  
permeate my soul  
with what you think is good

protect me on my way  
stay with me every day  
permeate my soul  
with what you think is good

know you  
feel you  
love fair  
you where  
touch me  
help me  
so close  
slow you  
half whole  
know you  
love me  
be mine

wouldn't you be  
close to me  
wouldn't you need a kiss from me

tag me while I play  
lie with me to delay  
anaesthetise my want  
when you think you should

protect me on my way  
stay with me every day  
permeate my soul  
with what you think is good

wouldn't you be close to me  
wouldn't you be close to me

know you  
feel you  
love fair  
you where  
touch me  
help me  
so close  
slow you  
half whole  
know you  
love you  
be mine
