

## Nameless

JJ72

Stumbled round, you I found  
Adored your glory, you're my story  
Then you let me down, let down  
You know we're the same

Once I frowned, then I found  
The one I love, as if from above  
You smile at me, I smile at you  
We were the same

You are not an enemy  
You are not an enemy  
Gentle as the sky  
Please don't ask me why

You are not an enemy  
You are not an enemy  
Gentle as the sky  
Please don't ask me why  
I cry
