

# All The Way

JLS

Love the way you move  
Make me wanna put this on you  
You know just what to do  
And I'ma take you down  
Soon as I break it up

Let's go all the way yea  
Let's go all the way yea  
Let's go all the way yea  
Let's go all the way yea yea yea yea

Soon as I saw you  
I knew how bad I wanted you  
There was nothing I won't do  
To get in-between you

Girl how you came alive  
Got me wondering what's inside  
I can't help but wonder why  
You ain't here with me, we can rock to the beat baby

Our love, our love  
Could be something crazy  
Your love, my love could be so amazing  
Don't matter, just us  
Baby, let's just face it  
Give in to this energy and give me your everything

Love the way you move  
Make me wanna put this on you  
You know just what to do  
And I'ma take you down  
Soon as I break it up

Let's go all the way yea  
Let's go all the way yea  
Let's go all the way yea  
Let's go all the way yea yea yea yea

Soon as I saw you  
I knew how bad I wanted you  
There was nothing I won't do  
To get in-between you

The way you move your hips  
You entice me with your lips  
Let me take you on a trip  
So come go with me, we can rock to the beat baby

Our love, our love  
Could be something crazy  
Your love, my love  
Could be so amazing  
Don't matter, just us  
Baby, let's just face it  
Give in to this energy and give me your everything
