

Better For You

JLS

What will it take
When will you see
The tears that you're hiding
Show underneath
It's easy to tell
I know you well
You're not fooling me

Cost the moment that you're feeling up, he brings you down
When everybody knows you're not so happy now
But you're beautiful, I'd show you, If you'd let me,
Can't you see I'm...

I'm much better for you, I'm much better for you
Much better for you,
I don't wanna see you heading for a heart-break
I can't turn away
You're the one I wanna save
'Cause I'm better for you

What will it take
Why can't we be
If you're gonna gamble,
Bet it on me
How does it sound
I won't let you down
'Cause you know you got me, got me, try me

You know that every time you build it up, he tears it down
Don't you think you've had enough already now
Cause you're priceless, I'd show you, If you'd let me
Can't you see I'm...

There's so much inside you just don't see (I'll show you, I'll
show you how good you are)
I can take where you need to be (with me)
