

# I Know What She Like

JLS

I know what she like, movies on a late night  
My baby and me, always feels so right  
I know what she like  
She's my queen, got the keys to my kingdom  
She can have it all, everything and then some  
I know what she like

It's not about the Louis or the Prada, she don't even bother  
She can have it all but doesn't need it  
She likes the flowers and the love notes, simple and beautiful  
She ain't bout material, believe it

She likes a home cooked meal after her 9-5  
Kick back, relax, take her for a drive  
We can cruise to the city, me and my baby  
I know what she like

I know what she like, movies on a late night  
My baby and me, always feels so right  
I know what she like  
She's my queen, got the keys to my kingdom  
She can have it all, everything and then some  
I know what she like

It's not about the shine of the diamonds, she don't even buy them  
She can have it all but doesn't need it  
She likes a kiss in the morning, a call when she's lonely  
She ain't bout material, believe it

She likes a walk on the beach on a sunny day  
And a nice hot drink in a small cafe  
We stroll down the broadway me and my shorty  
I know what she like

If you want a guy that be treating you right  
That's gonna give you every little thing that you like  
Let me hear you say yeah  
If you want somebody that'll be by your side  
Someone that'll give you that kiss goodnight  
Let me hear you say yeah
