

# Outta This World

JLS

Houston  
We got a problem  
Said I'm calling Houston  
We got a problem

Hey  
Baby out of space, or a far off place  
She's in front of me I'm standing still  
Feels like magic, and she has it on me  
I'm frozen, almost ill

This love of another kind  
So out there it blew my mind  
This love of another kind  
I can never find never find it

She's got me in a trance  
The way that baby dance  
And I just wanna hold her body close  
The look that's in her eyes  
Has got me mesmerized  
And where she's coming from nobody knows

She's outta this world  
She's outta this world  
She's outta this world world world  
She's outta this world

Now she's taking me to a galaxy  
And I can't believe I'm touching her  
And she has me where there is no gravity  
And I'm floating up off this earth

This love of another kind  
So out there it blew my mind  
This love of another kind  
I can never find never find it

She's got me in a trance  
The way that baby dance  
And I just wanna hold her body close  
The look that's in her eyes  
Has got me mesmerized  
And where she's coming from nobody knows

She's outta this world  
She's outta this world  
She's outta this world world world  
She's outta this world

London, Paris, L.A., Chicago  
Venus, Mars or Saturn or Pluto  
Neptune, NY, Jupiter, Toronto  
Where you from girl  
Where you from girl  
London Paris L.A. Chicago  
Venus Mars or Saturn or Pluto

Neptune NY Jupiter Toronto  
Where you from girl  
Where you from girl

Tell me where you from  
Venus, Mars or the sun...
