

Pieces Of My Heart

JLS

How we got here, I can't explain
But what's important is that you came
You can take my future now, hold it in your hands
There's no going back, tell me why you never want to
How come, how come, I could not see?
My heart, my heart, shuddered into pieces?
No one, no one, could never reach me
It only made sense when you were standing right in front of me!

Hey, do you know that you saved my life
Cause you came and you helped me find
All the pieces, all the pieces of my heart.
You talked me how I can leave again,
I didn't know all that I was missing
All the pieces, all the pieces of my heart.
