

Talk It Out

JLS

Baby, ain't no way I'm walkin' out
No matter how long it takes, let's talk it out
If you know the way to fix it girl then please just show me how
Baby, can you tell me what's this all about?

Everybody's so quick to give it up
Throwin' in the towel and forgetting love
Why don't we just invest a little time
Go ahead, let me know what's on your mind

Talking crazy, there's no meanings
Don't you see you've had enough?
Dedicated to you baby
I just wanna know what's up

Some may say things never change
But I believe in us

Baby, ain't no way I'm walkin' out
No matter how long it takes, let's talk it out
If you know the way to fix it girl then please just show me how
So baby, can you tell me what's this all about?

Let's talk it out
Oh oh oh oh
Instead of walkin' out
Oh oh oh oh

Apologized for all the mistakes I've made
But it takes two, counting it up to fate [?]
We gotta be willing to do whatever it takes
Cause I ain't letting no one else come take my place (talk it out)

Talking crazy, there's no meanings
Don't you see you've had enough?
I'm dedicated to you baby
I just wanna know what's up

Some may say things never change
But I believe in us

Baby, ain't no way I'm walkin' out
No matter how long it takes, let's talk it out
If you know the way to fix it girl then please just show me how
So baby, can you tell me what's this all about?

Let's talk it out
Oh oh oh oh
Instead of walkin' out
Oh oh oh oh

Oh, do you know? (do you know?)
I don't ever want you to leave
Oh, do you know? (do you know?)
You're the only one I need

I don't wanna have regrets

In a fight we both could lose
So I'm taking steps to get closer to you

Baby, ain't no way I'm walkin' out
No matter how long it takes, let's talk it out
If you know the way to fix it girl then please just show me how
Baby, can you tell me what's this all about?

Let's talk it out
Oh oh oh oh
Instead of walkin' out
Oh oh oh oh

Let's talk it out
Oh oh oh oh
Baby could we talk it out
Let's talk it out
Oh oh oh oh
Instead of walkin' out

Let's talk it out
