

Breathe in the life.  
Fill us with water.  
We're taking it farther and farther.  
See, Momma can't make it right.  
Don't look to your Father.  
We need to be smarter and smarter.

This won't happen twice.  
So don't even bother.  
Were taking it farther and farther.

See, freedom comes with a price,  
But that's just a part of life.  
'Said, that's just a part of life.

It's coming. I can see for miles.  
Head towards the light.  
We own the night.

We're done playing nice.  
So don't be a martyr.  
We've got to be harder and harder.

We came here to fight,  
And that's just a part of life.  
'Said, thats just a part of life.

It's coming. I can see for miles.  
Head towards the light.  
We own the night.

Everyday you're always fighting for something.  
Everything you never see is coming.  
It'll find you.  
It'll find you.  
You're running out.  
You're running out.
