

# Alone

JMSN

Staring out the window  
Waiting for life to stop  
Cus everything I been through  
Never seems to let up  
Someone ask me why I feel like I feel  
Take pill after pill  
I wish I could chill politic  
And play the game  
I dont know the fake from the real  
The weight of the steel  
From the things that I kill  
When I sign my life away

Ohh, You know I want this  
I know you need it too  
I see alone I am  
Lets be alone I am  
Ohh, You know I want this  
I know you need it too  
I see alone I am  
Lets be alone I am  
I see alone I am  
Lets be alone I am

I'mma keep it simple  
Forget that I  
I just gotta have ya'  
And Ill never stop

Ohh, You know I want this  
I know you need it too  
I see alone I am  
Lets be alone I am  
Ohh, You know I want this  
I know you need it too  
I see alone I am  
Lets be alone I am  
I see alone I am  
Lets be alone I am

I'mma give you what I want  
The only thing I need  
You call me in my dreams  
Even when Im not asleep  
Even when Im not asleep  
Your the only thing I got  
Its clear for me to see  
No matter the degree  
This is where I wanna be  
This is where I wanna be  
This is where I wanna be

Ohh, You know I want this  
I know you need it too  
I see alone I am  
Lets be alone I am  
Ohh, You know I want this

I know you need it too  
I see alone I am  
Lets be alone I am  
I see alone I am  
Lets be alone I am
