

Always Somethin'

JMSN

Always somethin'. Can't it just be right?
Lord knows, it's always somethin'. Can't it just be right?
Wish someone would tell me why,
Why I waste my time workin day and night? When it's never right
. .
Never get nothin'. Never get nothin' right.
'Cause it's always somethin'. Makes me wonder why, why I even t
ry.
'Cause it's a cold cold cold cold world out there
And my faith is runnin' dry. Nothin's ever right.

I ain't got no time to... time to play around
When everyone around me is tryna bring me down,
I know. See they just never get nothin' right,
And that just ain't my type.
Don't expect a thing from no one, 'cause they can never get not
hin' right.

I'm always bustin' my ass
Just tryn' to get by.
(Said what you know about that life?)
Came from nothin'. Now people wanna hitch a ride.
Always think they sly.
Why don't you go live in your car for a while
And tell me if you survive.

I've been out here roughin' it player
For a very very long time.
You know I'm out here roughin' it player.
You know I gotta get mine, all the time.
See, this might be out of your wheel house
But I stay on my grind, all the time.

I ain't got no time to... time to play around
When everyone around me is tryna bring me down,
I know. See they just never get nothin' right,
And that just ain't my type.
Don't expect a thing from no one, 'cause they can never get not
hin' right.
