

Oh, hey
Yeah, come on (come on)

I mean, everybody's got problems (everybody)
What makes you special (What makes you special)
Yeah, oh baby
Yes it's hard to We've all got potential
It's not circumstantial

I say every one of us to be what we want to be
Here's the We are strong enough
Be what we want to be

Since you can blame who you want to (you can blame who you want to)
But it don't make a difference what you're gonna do (it don't make a difference)
What you're doing right now, what you're doing right now

It starts in you, it starts in you
You got the power baby, you got the power baby
It starts in you, it starts in you
You got the power baby, you got the power baby
We don't care about love
There's no doubt that we loved each other

There's a secret that I got to tell you now (now, now, oh yeah)
You're the only one holding yourself down (holding yourself down, holding yourself down, holding yourself down)

I say everyone of us to be what we want to be
Here's the We are strong enough
To be what we want to be

You got the power
You got the power
You got the power
You got the power
You got the, power
You got the, power
We don't care about There's no doubt that we loved each other
There's no doubt we loved, there's no doubt we loved
Loved each other

Always some resistance, yeah
Tomorrow's another day
I swear it's okay
Swear it's all okay
We will never see another day

Oh, oh yeah, there is no click
Ready for these vocals?
Check, yeah
