

It's coming around again, it's coming around again, yeah yeah
It's coming around again, round again, round again

You know I feel the pressure, yeah
Obsessin' and obsessin', there ain't no time for restin' baby
I think it's time for me to fess up, yeah
Everyday's is a different lesson, every lie makes a good confession b
aby

Lightning doesn't strike twice, but you know, baby
Nothing is impossible
Life won't change tonight
But you never know
Anything is possible

I could run away, or I could stay
But it don't matter baby
Cause it comes in waves, it comes in waves

In waves (matter baby) [x4]

It's coming around again, it's coming around again, yeah yeah
It's coming around again, round again
I swear it is, round again

You decide what to believe
I swear to you, that nothing is impossible
I swear, anything is possible

I could run away, or I could stay
But it don't matter baby, no
Cause it comes in waves, it comes in waves

In waves (matter baby) [x4]

All come round again
All come back round again
Nothing is impossible
Said, it all comes around again
Anything is possible

It's coming around again, it's coming around again, yeah yeah
It's coming around again, round again, round again

All comes round again
Nothing is impossible
