

Every Little Girl's Dream

Jo Dee Messina

I remember when I was a little girl
Growin' up livin' in my own little world
So it seemed
I had my dolls and dreams

Mama was always there to comfort me
And her love
Wasn't nothin' quite like it
In the world that I knew of

Before I knew it, I was standing in my teens
Sweet little boy with his strong young arm holdin' me

I remember the first time I felt his kiss
Oh, it like to drove me crazy
And I remember sayin' I never felt nothin' like this

So I went and asked mama
Can you tell me what it means
And she said, you're in love
And that's every little girls dream

Baby, what you've found
Is every little girls dream

So I said, mama does love ever last
She says, where by now let the future come to pass
Just understand and enjoy what you've found
And listen to it just as long as your heart is sound

And love, there ain't nothin' quite like it
In the world anybody knows of
There are worlds all through my teens
Same little boy with his strong young arm lovin' me

I remember the first time I felt his kiss
Oh, it like to drove me crazy
And I remember sayin' I never felt nothin' like this

I remember sayin' to mama
I know just what you mean
I'm in love, and that's every little girl's dream

Woah, what I found
Is every little girl's dream

And I found mine, and mama says, me too baby
Once upon a time
It lifts you up, but it lets you down

There'll be another dream to bring it back around

There's something about the first time
That keeps you rememberin'
When you've found every little girl's dream

Every little girl's dream

I found
Every little girl's dream
(I remember the first time I felt his kiss)
Every little girl's dream
(I remember sayin' I never felt nothin' like this)
Every little girl's dream
(I found someone and I fell in love)
Every little girl's dream
(I remember sayin' I never felt nothin' like this)
