

# I'm Done

Jo Dee Messina

You and me we had a pretty good thing  
We were makin' plans, we were planning our dreams  
Then you had to go and let her back in  
Boy, you oughta know that's where the trouble begins

She don't love you, she's just pullin' your chain  
Don't you know you're like her puppet on a string?

Now she's walkin' around, talk of the town, she just can't shut  
up  
Oh, she's out there and she's a havin' her fun  
Spendin' her time, wastin' mine, provin' that she has you  
Well, the truth is she don't have to, she can have you, I'm done

She's the kinda girl that's a good for nothin'  
Leaves a path of destruction everywhere that she goes  
What you see in her, well I'll never know  
She's the kinda trash you find beside of the road

She don't love you, she's just messin' your mind  
And you snap back, no slack, right back to her every time

Now she's walkin' around, talk of the town, she just can't shut  
up  
Oh, she's out there and she's a havin' her fun  
Spendin' her time, wastin' mine, provin' that she has you  
Well, the truth is she don't have to, she can have you, I'm done

Oh, you had to scratch that itch  
You deserve what you get, yeah, you and that

Walkin' around, talk of the town, she just can't shut up  
Oh, she's out there and she's a havin' her fun  
Spendin' her time, wastin' mine, provin' that she has you  
Well, the truth is she don't have to, she can have you, I'm done  
e  
Truth is she don't have to, she can have you, I'm done  
The truth is she don't have to, she can have you, I'm done
