

# You Were Just Here

Jo Dee Messina

I woke up at 5 A.M.  
Hearing your voice again  
But it was just the TV  
Coming from the other room

Your half empty coffee cup  
Is sitting right where it was  
I almost moved it last night  
But it didn't feel right  
It's too soon, it's too soon  
It still feels like

You were just here, you were just holding me  
I was alright, I never would have believed  
That you'd go away, that you could just disappear  
When you were just here

The calendar on the wall  
Doesn't miss you at all  
It still says you'll be there  
With us all on Christmas Eve

The picture you hung last week  
Keeps staring back at me  
There we are still laughin'  
Like nothin' ever happened  
I still feel you in the air  
It's not fair, it's not fair

You were just here, you were just holding me  
I was alright, I never would have believed  
That you'd go away, that you could just disappear  
When you were just here

I reach out and you're not there  
But I still feel you everywhere  
No matter how much I try  
Or how hard I cry  
It still feels like

You were just here, you were just holding me  
I was alright, I never would have believed  
That you'd go away, that you could just disappear  
When you were just here, you were just here  
You were just here, oh
