

# All Night Long

Jo Stafford

All night long  
I cry for you.  
I keep rememberin'  
What your love can do.  
I miss you  
Baby, all night long.

And all night long  
I twist and turn.  
I keep rememberin'  
How your kiss can burn.  
I miss you  
Baby, all night long.

I wish I had  
A magic phone  
From your heart to mine.  
I'd call you heart-to-heart  
Each night, on your private line.

Then, all night long  
So constantly  
I'd keep you busy  
Makin' love to me.  
I love you  
Baby, all night long.

I wish I had a magic phone  
From your heart  
Right to mine.  
Then I'd call you  
Heart-to-heart  
Each night on your private line.

Then, all night long  
So constantly  
I'd keep you busy  
Making love to me.  
And I love you  
Baby, all night long.
