

## Softly My Love

Jo Stafford

Softly my love I sing to you  
And every note that echoes in the night  
Go strait to you.

And as the words find you my love  
Let them become the stepping stones  
That lead you back to me.

When at last the word have found you  
Mighty chords will sound around you  
And crescendo till we two are one!!

Then we will know, then our hearts will know  
That this melody will always be  
Our song.
